In the event that a shipment of ingredients to Ag Provision is received and deemed to be unacceptable for receipt in its current state, the shipment should be refused to prevent potential contamination and Matt Collins of Diversified Ingredients should be contacted immediately at (314) 369-5272 to determine the fate of the shipment. An investigation will be initiated in which Diversified Ingredients will work with Ag Provision and Eppen to determine the cause of the issue and if any steps can be taken to bring the shipment back into an acceptable state.
