

Eastman Chemical Company
P.O. Box 431
Kingsport, Tennessee 37662

Eastman Animal Nutrition, a division of Eastman Chemical Company, has assumed all Foreign Supplier Verification Program (FSVP) responsibilities for products it imported from 3F Feed & Food, S. L., Madrid Spain and verifies that the products imported are produced in compliance with applicable FDA regulatory requirements for feed for animals. A Hazard Analysis Review and Assessment for all feed additives produced by the company, which includes Biological, Chemical and Physical hazards has been conducted. Based on this review, no additional controls are required to control the identified hazards and to ensure the safety of the products supplied beyond the cGMP procedures currently in place at that facility.

Eastman Animal Nutrition confirms to comply with GFI 235 via the guidance document for 21 CFR Part 507 Current Good Manufacturing Practice, Hazard Analysis Risk Based Preventive Controls for Food for Animals (USA FDA). Our Eastman Corporate Food and Feed Quality Manual (QM) refers to 21 CFR 507”

Eastman has performed 2 internal audits at 3F Feed & Food, S. L., Madrid Spain and used the FAMI QS checklist and our Eastman Corporate Food and Feed Quality Manual (QM) requirements, which results in compliance with GFI 235.
