

Boric Acid - Granular

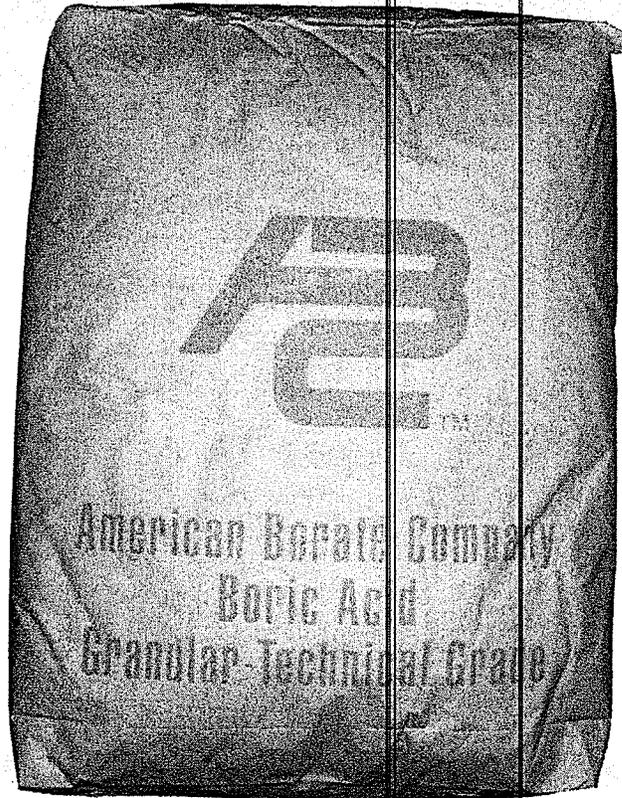

Wild Acid Insecticide

FOR BEETLE CONTROL IN POULTRY:

Apply under the feed lines and along the walls instead of the entire house. By focusing the insecticide applications to the areas where the beetles are living when the birds are in the house will offer much better control.

1 - 2 lb per 100 sq. ft.
100 lbs per house

SPECS:	Specification (%)	Typical Analysis (%)
B ₂ O ₃	56.25% min	56.32%
Na	50ppm (.0050) max	25 ppm (.0025)
