FDA Facility Registration

Dear Valued Customer,

All domestic and foreign manufacturing facilities providing product sold by NutriQuest have completed the FDA facility registration process and are compliant with the renewal requirement. These facilities are compliant with the requirements of the Bioterrorism Preparedness and Response Act of 2002 and the Food Safety Modernization Act.

The manufacturer of Lipinate has a current registration and is in good standing with FDA.

It is the policy of NutriQuest to keep the registration numbers confidential. Please accept this letter as assurance the facility has been registered.

Regards,
