**LANXESS Virkon™ S Broad Spectrum Disinfectant Proven Effective
Against African Swine Fever Virus^{1*}**

Dear Sir or Madam,

With African Swine Fever Virus^{1*} (ASF) being considered one of the most feared epidemic diseases of global pig production, LANXESS can confirm that its broad spectrum disinfectant Virkon™ S, is independently proven effective against the ASF^{1*} virus. Please consult the Virkon™ S product container label for use directions, and a comprehensive list of organisms.

In addition, LANXESS provides customized technical support to swine producers to help protect against pathogens such as ASF^{1*} in applications across the range of possible infection vectors, including other animals, transport vehicles, housing facilities, and personnel. This advice is available upon request, if interested please contact Jeff Odle (610-355-7287, Jeffrey.Odle@LANXESS.com).

Yours Faithfully,

Ryan T. Domack
