

ACID LINE CLEANER

POULTRY AND LIVESTOCK WATER LINE CLEANER

DIRECTIONS FOR USE

To clean main water lines and medication tanks, use BASE LINE CLEANER followed by ACID LINE CLEANER (consult with appropriate technical staff prior to using on drinkers). Mix one (1) gallon BASE LINE CLEANER in 100 gallons of water. Allow to stand in lines for approximately one (1) hour prior to flushing. Flush lines completely to the outside of house. Continue flushing until lines run clean. Mix one (1) gallon ACID LINE CLEANER in 100 gallons of water. Allow to stand in lines for approximately one (1) hour prior to flushing. Flush lines completely to the outside of house. Continue flushing until lines run clean.

HANDLING & STORAGE

Keep contain tightly closed and store in a secure, cool, dry, well-ventilated area when not in use. Protect containers from abuse, extremes in temperatures, and away from incompatible materials, food and drink. Wear suitable protective clothing, gloves, and eye/face protection during use. Use only in well-ventilated areas or wear an appropriate respirator. Do not breathe any mists formed during mixing. Wash hands and exposed

skin thoroughly after handling. Keep this and other chemicals out of reach of children.
