

BIO-PINE 20 BARN SOAP is a pine oil based cleaner and degreaser specially developed for use prior to disinfecting procedures and is compatible with phenolic and quat disinfectants.

BIO-PINE 20 BARN SOAP's unique combination of pine oil, detergents, and penetrating agents can be used in all areas of animal production facilities, including; nurseries, farrowing crates, brooders, poultry houses, horse stables, foaling and breeding sheds, calf barns, ratite facilities, avian rearing facilities, equipment, waterers, feeders, vehicles, and all other areas where cleaning is critical to Bio-Security.

BIO-PINE 20 BARN SOAP is safe to use on aluminum, brass, chrome, copper, galvanized steel, iron, stainless steel, painted surfaces, vinyl, plastic, wood, tile, and other environmental surfaces found on the farm facility.

BIO-PINE 20 BARN SOAP penetrates and emulsifies both organic and inorganic soils, greases, and body fluids, and rinses easily from all surfaces to prevent chemical residues.

DIRECTIONS FOR USE

BIO-PINE 20 BARN SOAP is used at recommended dilutions of 1:100 and is fully compatible with most germicides. It may be applied through high or low pressure equipment, or by sponge, mop, or immersion. Special applications may require stronger dilution rates. See your Sales Representative for details.

This product is designed exclusively for industrial and institutional use by trained personnel. This product is sold as is and the manufacturer makes no warranty, express or implied, of merchantability, fitness for a particular purpose or otherwise.
