

BIOSUPREME[®] L

ORGANIC

YUCCA SCHIDIGERA EXTRACT

INGREDIENTS: *Yucca schidigera* concentrate liquid extract and citric acid.

GENERAL USE: The addition of BIOSUPREME L^{MR} in livestock, swine and poultry feed will reduce ammonia concentration, hydrogen sulfide and other toxic gases detrimental to the health and performance of animals. It will reduce noxious odors in confinement houses and solid buildups in slurry stores and pits.

SUGGESTED USAGE LEVELS

■Slurry pits:

For each 100 cubic feet of wastewater in the pit, apply 4 Oz. once a week for the first four weeks or until the desired ammonia level control is achieved. Thereafter reduce to 1½ Oz. of product once a week.

■Barns, stalls or pens:

Add ¼ to 2 oz. per 1000 gallons of water used to wash floors or walls of barns, stalls or pens. Use as a detergent for normal cleaning of walls, floors and cages.

■Manure holding ponds and lagoons:

Spray 6 Oz. per 1000 ft² over the lagoon's surface once a week until crust is dissolved and desired odor level control is achieved. Moreover apply ½ Oz. per 1000 gallons to the lagoon's water influent.

■Broiler beds:

Spray 2½ Oz. per 1000 ft² twice a week over the litter until odor and toxic gas emanations are reduced.

■Recommendations

To obtain an even product distribution, it is recommended to dilute BIOSUPREME L^{MR} in water at a ratio of 10 to 1.

Application in animal drinking water

Broilers, turkeys, layers 8 Oz. per 1000 gallons of water
nursing sows,
piglets, bovine

Grower or
gallons of water
finisher pigs

6½ Oz. per 1000
