#### DIRECTIONS FOR USE/INSTRUCCIONES DE USO

Observe pigs daily to identify bite wounds. Saturate the affected area with Bite B-Gone. Apply daily for 2 days minimum and continue as needed. Continue to observe the wound and if biting persists contact your veterinarian for recommendations. If multiple pigs in a pen are identified, apply Bite B-Gone to all pigs in the pen to mitigate biting behavior.

#### Shake well before each use.

Do not dilute. For ease of application, Bite B-Gone should be applied using a pump sprayer with a wand. Use in high density plastic (HDPE) sprayers. Use hot soapy water for easy sprayer cleanup.

*Observe a los cerdos diariamente para identificar heridas por mordedura. Empape el área afectada con Bite B-Gone. Aplique diariamente por dos días y continúe según se necesite. Continúe observando la herida y si las mordeduras persisten contacte a su veterinario para obtener recomendaciones. Si varios cerdos en un corral son identificados con mordedura, aplique Bite B-Gone a todos los cerdos de ese corral para mitigar este comportamiento.*

#### Agítese bien antes de usar.

*No se diluya. Para facilitar la aplicación, Bite B-Gone deberá ser aplicado usando una bomba aspersora con varilla de aplicación. Utilícese en aspersores de plástico de alta densidad (HDPE). Use agua jabonosa y caliente para la fácil limpieza del aspersor.*

All ingredients are Generally Regarded As Safe (GRAS).

#### STORAGE

Store in a cool, dark area out of direct sunlight. Do not allow product to freeze.

CAUTION: For topical use on animals only. Avoid eye contact. Product may cause skin irritation and/or allergic reaction. If skin irritation occurs, discontinue use and wash affected area. If irritation continues, consult a veterinarian and/or doctor. Keep out of reach of children.
