

Chlor-A-Foam™ EVO Components*			
Chemical Name	CAS No.	Function	List(s)
Water	7732-18-5	Diluent	Not Applicable
Sodium Hypochlorite	7681-52-9	Cleaning agent	Not Applicable
Potassium Hydroxide	1310-58-3	Cleaning Agent	Not Applicable
Lauryl Dimethyl Amine Oxide	1643-20-5	Wetting agent	Not Applicable
Benzenesulfonic acid, decyl(sulfophenoxy)-, disodium salt	36445-71-3	Surfactant	Not Applicable
Acrylic polymer	withheld	Sequestering agent	Not Applicable
Potassium Silicate	1312-76-1	Corrosion Inhibitor	Not Applicable
Sodium Acrylate	9003-04-7	Dispersion Agent	Not Applicable

* This table is being shared to comply with the California Cleaning Products Right to Know Act. Please refer to the SDS for further information on product hazards.

Chlor-A-Foam EVO Hatchery and Equipment Cleaner is a high-foaming product that rapidly removes protein, fat and carbohydrate soils from surfaces. It can be used through a variety of foam-generating equipment as well as in pressure washers.

Chlor-A-Foam EVO is used for cleaning hatchers, setters, equipment, egg rooms, chick boxes, walls, floors and refuse areas in poultry hatcheries. In poultry and meat processing plants, it is used for cleaning equipment, shackles, walls, floors and refuse areas. It is excellent for stainless steel, concrete, plastic, glass, tile and other surfaces. It is compatible with quaternary and phenolic disinfectants.

DIRECTIONS FOR USE

For Foam Cleaning: Use **Chlor-A-Foam EVO** as a 1.75% to 3.0% solution (2 to 4 fl. oz. per gallon of water) (16 to 32 mL/L) through a suitable foam generator. This concentration will clean most soils effectively. For unusually heavy soils, use a 4.0% to 5.0% solution to clean (5 to 6 fl. oz. per gallon of water) (40 to 48 mL/L). Contact your Neogen Corporation Representative for suitable equipment recommendations.

Foam the cleaning solution on the surfaces to be cleaned. If possible, allow foam to work for 5 to 10 minutes and flush soils away with water under pressure.

For Pressure Washing: Dilute product to 0.75% solution (1 fl. oz. per gallon of water) (8 mL/L) and apply to surfaces to be cleaned as a soft spray. Thoroughly soak surfaces. If possible, allow cleaner to act on surfaces for 5 to 10 minutes. Then wash away soils with a high-pressure water wand. Disinfect areas requiring it with a compatible disinfecting solution.

Food Processing Equipment, Utensils And Other Food Contact Surfaces: Clean as directed above. Thoroughly rinse cleaned surfaces with potable water before they are reused. Where recommended or permitted, apply a sanitizer solution to food contact surfaces before reuse.

This product is a phosphate-free, formulated alkaline detergent solution. Contamination with other materials such as acids, amines, or ammonia-bearing compounds, etc., may cause a dangerous chemical reaction. Keep all chemical and foreign materials away from this solution. Keep away from excessive heat.

Note:

- Do not use on soft metals such as aluminum and brass.
- This product is not recommended for manual cleaning operations. If some manual cleaning must be done wear appropriate personal protective equipment.

SIGNAL WORD: DANGER

HAZARD STATEMENTS

Causes severe skin burns and eye damage.
May be corrosive to metals.
May be harmful if swallowed.
Contains substances which are hazardous to the environment.

PRECAUTIONARY STATEMENTS

Prevention:

Wash thoroughly after handling.
Wear protective gloves/protective clothing/eye protection/face protection.
Do not breathe dust/fumes/gas/mist/vapor/spray.
Keep only in original container.

Response:

Immediately contact a poison control center or doctor/physician.
If on skin or hair: Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse.
If swallowed: Rinse mouth. Do NOT induce vomiting.
If inhaled: Remove person to fresh air and keep comfortable for breathing.
If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing eyes.

For specific treatment, refer to Section 4 of the product Safety Data Sheet (SDS).

STORAGE AND DISPOSAL

Storage: Store locked up.

Disposal: Dispose of contents/container in accordance with Federal, state, and local regulations.
