

T-HEXX® Dragonhyde® Putty Label

Dragonhyde®

PUTTY

FOR TOPICAL USE ON HOOF CONDITIONS

Rev 1018
Part # JTHX-00013

net weight 400 g

T-HEXX® Dragonhyde® Putty is a topical paste that is used for creating healthy hoof conditions on individual animals. Best used during foot examination and trimming. This unique formula, part of the T-HEXX Dragonhyde Hoof Care Line, has excellent adhesion properties and can be used with or without hoof wraps. It is great for packing into hoof cracks or for use on other hoof issues. T-HEXX Dragonhyde Putty helps to dry out the hoof while providing gentle adhesion to the affected layers.

How to use: Clean the hoof, completely remove any manure, dirt or other material. Use a disposable wooden applicator to apply T-HEXX Dragonhyde Putty generously to the area of the hoof that needs attention. Then apply wrapping tape if needed. Discard wooden applicator after each animal.

Storage: Keep container tightly sealed. Store in a cool area. **Disposal:** See Safety Data Sheet (SDS).

Ingredients: Basic Green 1, Phenoxyethanol

FIRST AID

Ingestion: Seek immediate medical attention if swallowed. Drink plenty of water. Do not induce vomiting. **Skin contact:** Wash off with plenty of water. Remove contaminated clothing.

Eye contact: Immediately flush with plenty of water, with the eyelid held wide open, for at least 15 minutes. **Seek immediate medical attention.**
