

EKSPEL™

Contains a source of xylanase which can hydrolyze xylans, a component of hemicellulose, in ruminants and swine; reduction of digesta viscosity with poultry diets.

Guaranteed analysis: Xylanase, min. 600 XIAU/gram *(*Trichoderma longibrachiatum*)

* One xylanase unit (XIAU) is defined as the amount of enzyme producing 0.24 umole of reducing carbohydrates measured as xylose in one minute.

Ingredients: hydrated sodium calcium aluminosilicate, artificial flavoring, chitosan, sodium metabisulfite, calcium L-ascorbyl-2-monophosphate, dried *Trichoderma longibrachiatum*, fermentation solubles

Directions for Use: Add to complete swine and poultry rations at the rate of 1-5 lb/ton

Cautions/Warnings: Avoid contact with skin or eyes. After contact with skin or eyes, wash immediately with plenty of water. Store in a dry, cool place in the original sealed packaging

Remarks: For all other livestock animals please consult your nutritionist
