

# Enviva® TARGET

Direct fed microbial for poultry. Contains a source of live (viable) naturally occurring microorganisms.

Not for human consumption.

**Guaranteed analysis:**

Lactobacillus reuteri min. 1.3E+10 cfu/g

**Directions for use:**

Provide 1.5E+08 CFU/bird/day for 3 consecutive days from day 4 to day 6, or the agreed upon day discussed with our technical manager. Each package contains a full daily requirement for 45,000 birds and should be administered through the waterline via stock solution. Stock solution should be made fresh daily by combining contents of the packet with 1 gallon of water and mixing vigorously. Use immediately by introducing stock solution into the drinking water through a medicator at a 1:128 ratio. The product may not be compatible with water line sanitation practices designed to mitigate microbial contamination.

**Ingredients:**

Dried Lactobacillus reuteri fermentation product. Dipotassium phosphate. Monopotassium phosphate. Trehalose. Xanthan gum.

**Stability:**

Stable for at least 9 months when stored unopened in original packaging at 4°C to 10°C (39.2°F to 50°F).

**Storage:**

Keep refrigerated until use.

May form combustible dust concentrations in the air.

Emergency Phone No: (319) 368-7657 a Distribution incident - Spill, Leak, or Accident CALL CHEMTREC - 800-424-9300 (within US) DuPont registration number 671983

**Manufactured for: Danisco US Inc. 3490 Winton Place, Rochester, New York 14623 USA**

**+1 (585) 256-5200 +1 (800) 847-5311**

Manufactured by: Attwill Medical Solutions LP, 925 Development Dr. Lodi, WI 53555

**EAN No:** 5700591326880  
**Product Code:** A662174080US  
**Batch No:** A721316201

**Net Weight:** 21.16 oz (600 g)  
**Date of manufacture:** 12NOV2021  
**Best Before:** 12AUG2022
