

OMEGAMUNE GUT PRO Poultry Probiotic

Contains a source of live (viable) naturally occurring microorganisms and stabilizing agents to help maintain viability of product through administration.

GUT PRO is protected by Vac-Pac Plus from the harmful effects of OXIDIZERS and pH in tap water

GUARANTEE: 1.25 x 10¹⁰ CFU/gram total bacteria

DIRECTIONS FOR USE:

Use prior to an anticipated challenge or secondary bacterial infection.

Turn off chlorine or water sanitizer before use of GUT PRO. GUT PRO is stabilized against oxidizers, protecting the probiotic from the harmful effects of normal chlorine and mineral elements in drinking water. No added stabilizers are needed when using GUT PRO. Make sure the entire watering system and stock solution are free of any anti-microbial agents. Turn chlorine or water sanitizer back on immediately following treatment.

Mix GUT PRO in the drinking water line and use within 8 hours.
100g bag of GUT PRO treats 10,000 birds. Repeat as needed.
