

**DIRECTIONS FOR USE:**

Wash down sows with clear water to remove gross soils. Apply TEK-TROL Brand HogWash at ½ oz. per gallon dilutions, either by manual application or low pressure sprayer. Rinse again to remove further loosened soils. REPEAT procedure. We recommend the use of the TEK-TROL Applicator to insure accurate dilutions when applying TEK-TROL Brand HogWash.

**FIRST AID:**

Eye irritant. Avoid contact with eyes. If contact occurs, flush with liberal amounts of running water.

**STORAGE:**

Store in original packaging. Keep tightly sealed when not in use. Dispose of properly.
