IntelliBond® technical information

IntelliBond® C *II*

Basic Copper Chloride

A nutritional feed additive for livestock, aquaculture and companion animals. When included within a commercial feed it must be declared as Basic Copper Chloride. American Association of Feed Control Officials (AAFCO) No. 57.154; Canadian Registration Number 990370; C.A.S. No. 1332-65-6

- **Copper** min: 54%
- **Typical chloride:** 13-18%

Physical description:

- A green, granular powder
- Bulk Density: $1,121 \pm 10 \text{ kg/m}^3$ ($70 \pm 6 \text{ lb/ft}^3$)
- Typical mean particle size: 100-300 μm
- IntelliBond C is packaged in multi wall, plastic lined 25 kg bags or 1,000 kg super sacks

Feeding Instructions:

- IntelliBond C is intended to be used as a source of copper supplementation in swine, poultry, dairy cattle, beef cattle, horses, aquaculture and companion animals.
- **Warning:** IntelliBond C contains high levels of copper. Due to the low tolerance of copper in sheep and associated species, appropriate caution should be taken when formulating and mixing diets.
- For best results, it is recommended that a qualified nutritionist be consulted to establish optimized feeding levels.

Store in a clean and dry environment
