Type B Medicated Feed - Contains Carbadox

# Mecadox<sup>®</sup> 2.5

TYPE B MEDICATED FEED

**CONTAINS CARBADOX**

#### Indications for use:

Control of swine dysentery (vibronic dysentery, bloody scours or hemorrhagic dysentery); control of bacterial swine enteritis (salmonellosis or necrotic enteritis caused by *Salmonella choleraesuis*); increased rate of weight gain and improved feed efficiency in swine.

#### Mix with Swine Feeds

**Active Drug Ingredient:**  
carbadox ..... 0.55% (2.5 g/lb)

#### GUARANTEED ANALYSIS

CALCIUM, (MIN) ..... 14.0%  
CALCIUM, (MAX) ..... 16.8%

#### INGREDIENTS

Roughage Product, Calcium Carbonate, and Mineral Oil

**Caution:** Certain components of animal feeds, including medicated premixes, possess properties that may be a potential health hazard or a source of personal discomfort to certain individuals who are exposed to them. Human exposure should, therefore, be minimized by observing the general industry standards for occupational health and safety.

Precautions such as the following should be considered: dust masks or respirators and protective clothing should be worn; dust-arresting equipment and adequate ventilation should be utilized; personal hygiene should be observed; wash before eating or leaving a work site; be alert for signs of allergic reactions—seek prompt medical treatment if such reactions are suspected.

**Caution:** Not for use in pregnant swine or swine intended for breeding purposes. Do not mix in feeds containing bentonite.

**Store in a cool dry place**

**See back of package for further use directions**

Warning: Do not feed to swine within 42 days before slaughter.
