

OptiPhos[®] 1000 PF

The Advanced Phytase

This product contains a source of phytase. Phytase increases the digestibility of phytin-bound phosphorus in poultry and swine rations.

Guaranteed Analysis

Phytase Activity (*Pichia pastoris*)(min) 1,000 FTU/g*

*One unit of phytase (FTU) from *Pichia pastoris* is equal to the amount of enzyme catalyzing the release of 1.0 micromole/minute of phosphorus from an excess of sodium phytate substrate at pH 5.5 and 37°C(98.6°F).

Ingredients

Calcium Carbonate, Roughage Products, Vegetable Fat, Dehydrated *Pichia pastoris* Fermentation Extract.

Recommended Mixing Directions

Mix into complete diets at the following rates:

Species	Grams/ton	Lb./ton	FTU/ton of feed
Layer	272-454	0.60-1.00	272,000-452,000
Broiler	228-908	0.50-2.00	228,000-906,000
Turkey	228-908	0.50-2.00	228,000-906,000
Swine	364-908	0.80-2.00	364,000-906,000

Conditions in pellet mills vary so please contact your Huvepharma technical representative to review applicable research data and determine the optimum use of OptiPhos PF[®] under your specific pellet mill conditions.

Storage of product

Unopened product: Store in a dry place at room temperature 22°C (72°F); use within 12 months from the date of manufacture. Refer to container for lot number and manufacturing date.

Opened product: Use contents within a short period.

Warning

May cause eye, skin and respiratory irritation. Inhalation may cause allergic reaction in sensitized individuals.

Manufactured for:

Huvepharma, Inc.
525 Westpark Dr., Ste. 230
Peachtree City, GA 30269
Tel: 877-994-4883

NET WEIGHT
25 Kg (55.1 LB)
