

# PHI-CHROME<sup>®</sup>10x

## CHROMIUM PROPIONATE

0.4% Chromium Premix from Chromium Propionate

Chromium supplement for broilers, swine, cattle and horses.

---

### Guaranteed Analysis:

Chromium (Cr), minimum.....	0.4%
Calcium (Ca), minimum .....	35.00%
Calcium (Ca), maximum.....	40.00%

---

### Ingredients:

Calcium Carbonate, Bentonite and Chromium Propionate.

---

### Directions for Use:

- Broilers:** To be included in broilers rations at no more than 0.1 pound per ton of complete feed. 0.1 pound per ton will provide 0.2 ppm (parts per million) of chromium from chromium propionate.
- Swine:** To be included in swine rations at no more than 0.1 pound per ton of complete feed. 0.1 pound per ton will provide 0.2 ppm (parts per million) of chromium from chromium propionate.
- Cattle:** To be included in cattle rations at no more than 0.25 pound per ton of complete feed. 0.25 pound per ton will provide 0.5 ppm (parts per million) of chromium from chromium propionate.
- Horses:** To be included in horse rations at a level not to exceed an intake of 4 mg of chromium from chromium propionate per horse per day.  
Contact a professional nutritionist for individualized recommendations based on your feeding program.
- Caution:** Follow label directions. Chromium from all sources of supplemental chromium cannot exceed 0.2 ppm of the complete feed for broiler chickens and swine and 0.5 ppm of the complete feed for cattle.  
Chromium from all sources of supplemental chromium cannot exceed 4 mg per horse per day.

---

### Storage and Handling:

1. Store in clean, dry area.
2. Do not breathe premix dust.
3. Do not cross-contaminate unsupplemented feeds.
4. Restrict use to responsible individuals.
5. Follow label directions.
6. Rotate inventory.

---

### CAUTION:

Dust from this product has been classified as a nuisance.

- Avoid repeated inhalation of dust over long periods. Short-term exposure may cause irritation; long-term exposure may result in serious irritation.
- Avoid contact with eyes
- Wash thoroughly after handling.
- Wear approved dust respirator.
- Avoid prolonged or repeated contact with skin.
- Use with adequate ventilation.

### First Aid:

Eye and skin contact – Flush affected areas with large quantities of water.

Inhalation – Remove to fresh air. If symptoms or chills and/or fever persist, see a physician.

Consult Safety Data Sheet (SDS) for additional information.
