

PI-2100™

CHLORINATED TRAY AND CAGE WASHING LIQUID

PI-2100 has been especially formulated for use in automatic power washers in cleaning stainless steel equipment, utensils, hatchery equipment, trays and animal cages.

PI-2100 effectively removes heavy organic soils, fecal matter, hair, feather down, urine stone, leaving the surfaces clean and bright.

PI-2100 provides a minimum of 100 ppm chlorine solution when diluted 1/2 oz. per gallon of water.

PI-2100 is free rinsing, prevents scale build-up in wash tanks.

PI-2100 has been accepted as a general cleaner on all surfaces, or for use with steam or mechanical cleaning devices by the USDA for use in Federally inspected meat, poultry, shell egg processing and egg grading establishments.

KEEP OUT OF REACH OF CHILDREN

DANGER

CONTAINS HIGHLY ALKALINE HYDROXIDES. CAN CAUSE BURNS. HARMFUL OR FATAL IF SWALLOWED. DO NOT MIX WITH OTHER CHEMICALS.

CHLORINE
BASE

DIRECTIONS

Equipment should first be descaled if a scale buildup is present.

Dilute 1/4 to 1/2 oz. **PI-2100** per gallon of wash water in the tank. For optimum results, maintain washing temperature between 120° F. to 160° F.

ANTIDOTES/SAFETY PRECAUTIONS:

Harmful if swallowed. Do not induce vomiting. Drink large quantities of water and call physician immediately. In case of contact with skin or eyes, flush copiously with water. If swallowed or if irritation persists, call physician. Store in a clean, dry area, away from food stuffs.

NFPA HAZARD CLASSIFICATION
