

# PI-2500

## *Liquid Hi-Foaming Chlorinated Hatchery and Barn Cleaner*

• PENETRATES, DEGREASES AND EMULSIFIES HEAVY SOIL •

**PI-2500** has been accepted as a general cleaner on all surfaces, or for use with steam or mechanical cleaning devices by the USDA for use in Federally inspected meat, poultry, shell egg processing and egg grading establishments.

**PI-2500** has been especially formulated for cleaning proteins, fats, greases, oils, carbohydrates, and a wide variety of organic soils.

Effective for use on all types of hard and soft surfaces, including stainless steel, aluminum, painted surfaces, glass, plastics, glazed and unglazed tile surfaces, porcelain and enamel.

Removes hardened chick down, chemical residues, and hard water salts from chick boxes, trays and buggys, setters, and incubator walls in hatcheries.

**PI-2500** provides hi-foaming characteristics and may be used with foaming devices.

**PI-2500** effectively removes heavy organic soils and fecal matter in brooders, breeders and grow out houses.

#### DIRECTIONS FOR USE

**PI-2500** is a heavy duty concentrate and should be used at 2-4 oz. per gallon of tap to warm water for general cleaning. The product may be applied by low or high pressure spraying equipment, foaming apparatus, mopping or brushing applications.

Your **PRESERVE** representative will recommend the proper dilution for your needs.

Rinse thoroughly with potable water after use on food processing equipment and utensils.

Do not use with excessively hot water.

Avoid contact with skin, eyes and clothing. Use only in well ventilated areas, avoiding inhalation of mist. Wash out empty drum before disposing.

#### ANTIDOTES

**External:** In case of contact immediately wash skin with plenty of clean running water for at least 15 minutes while removing contaminated clothing and shoes. If burn or irritation has occurred call a physician.

**Internal:** If swallowed **DO NOT INDUCE VOMITING.** Immediately drink a large quantity of water and call a physician. Never give anything by mouth to an unconscious person.

**Eyes:** Immediately flush eyes with plenty of clean running water for at least 15 minutes. Call a physician.
