

**LINCOMYCIN HYDROCHLORIDE  
SOLUBLE POWDER****SECTION 1: IDENTIFICATION**

**Product Identifier:** Lincosol Soluble Powder

**Material Name:** Lincomycin Hydrochloride

**Recommended Use:** Veterinary pharmaceutical antibacterial powder used to mix into the drinking water of swine and broiler chickens.

**Restrictions on Use:** For use in swine and broiler chickens only.

**Manufacturer:** **MED-PHARMEX INC.**  
2727 Thompson Creek Road  
Pomona, CA 91767

**Business Hours:** 8:30 a.m. to 5:00 p.m. Pacific Time Monday thru Friday

**Telephone Number:** 909-593-7875

**Emergency Telephone:** If over exposure occurs call your poison control center at  
1-800-222-1222 ... Human Poison Control  
1-888-426-4435 ... ASPCA Poison Control

**SECTION 2: HAZARD(S) IDENTIFICATION**

**Product Description:** White or almost white, crystalline powder, odorless to faint odor.

**Classification of the Substance or Mixture:** Veterinary antibacterial powder.

**Signal Word:** **WARNING**

**Hazard statement(s):** Irritating to eyes, respiratory system and skin. Limited evidence of a carcinogenic effect. Possible risk of harm to the unborn child. Lincomycin crosses the placenta and may be concentrated in the fetal liver. However pregnancy problems in humans have not been documented. May be harmful if swallowed. Adverse effects include abdominal cramps, gastrointestinal disturbances, nausea or vomiting, diarrhea, fever, tiredness, headache, dizziness, skin rash, and electrolyte imbalances. Severe water or bloody diarrhea is a serious and delayed reaction in some cases. Possible allergic reaction to material if inhaled, ingested or in contact with skin. Persons hypersensitive to clindamycin or doxorubicin may be hypersensitive to this material also.

**Precautionary statement(s):** For use in animals only. Not for human use. Avoid contact with skin. Wear suitable protective clothing and gloves. Avoid contact with eyes. Wear eye/face protection. Avoid exposure - obtain special instructions before use. Keep away from food, drink and animal feeding stuffs. In case of contact with eyes, rinse with plenty of water and contact a Doctor or Poison Control Center. If swallowed, immediately contact a Physician or Poison Control Center. Have this sheet handy for physician and/or Poison Control.

**SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS**

Chemical Name	CAS Number	Concentration
Lincomycin Hydrochloride	7179-49-9	Proprietary

**SECTION 4: FIRST AID MEASURES****Description of First Aid Measures:**

<b>In case of eye contact:</b>	In case of eye contact, immediately rinse eyes thoroughly with plenty of water. If wearing contact lenses, remove only after initial rinse, and continue rinsing eyes for at least 15 minutes. If irritation occurs or persists, consult a physician.
<b>In case of ingestion:</b>	Do not induce vomiting unless under the direction of a qualified medical professional or Poison Control Center. IMMEDIATELY consult a physician. Do not attempt to give anything by mouth to a seizing, drowsy or unconscious person. If alert, rinse mouth and drink a glass of water.
<b>In case of skin contact:</b>	In case of skin contact, while wearing protective gloves, carefully remove any contaminated clothing, including shoes, and wash skin thoroughly with soap and water. If irritation or symptoms occur or persist, consult a physician.
<b>In case of inhalation:</b>	Remove to fresh air. If any trouble breathing, get immediate medical attention. Administer artificial respiration if breathing has ceased. If irritation or symptoms occur or persist, consult a physician.

**SECTION 5: FIRE FIGHTING MEASURES**

<b>Suitable Extinguishing Media:</b>	Carbon dioxide (CO <sub>2</sub> ), extinguishing powder or water spray.
<b>Flammable Properties and Hazards:</b>	Under normal conditions of use, this material does not present a significant fire or explosion hazard.
<b>Flash Pt:</b>	No Data Available
<b>Explosive Limits:</b>	This material is assumed to be combustible. As with all dry powders it is advisable to ground mechanical equipment in contact with dry material to dissipate the potential buildup of static electricity
<b>Auto-ignition Pt:</b>	No Data Available
<b>Fire Fighting Instructions:</b>	Wear full protective clothing and self-contained breathing apparatus (SCBA).

**SECTION 6: ACCIDENTAL RELEASE MEASURES**

**Protective Precautions, Protective Equipment and Emergency Procedures:** Wear appropriate personal protective equipment. Keep personnel away from the clean-up area. Avoid dust formation, dampen with water to prevent dusting before sweeping. Avoid breathing dust, vapors, mist or gas. Ensure adequate ventilation. For personal protection see section 8.

**Methods and Material for Containment and Clean Up:** All spills should be handled according to site requirements and based on precautions cited in the SDS. In the case of liquids, use proper absorbent materials. For laboratories and small-scale operations, incidental spills within a hood or enclosure should be cleaned by using a vacuum or wet cleaning methods as appropriate. For large dry or liquid spills or those spills outside enclosure or hood, appropriate emergency response personnel should be notified. In manufacturing and large-scale operations, vacuuming prior to wet mopping or cleaning is required. Dispose in accordance with local, state and federal regulations regarding health, water and air pollution.

## SECTION 7: HANDLING AND STORAGE

**Precautions for safe Handling:** Avoid contact with skin and eyes. Avoid formation of dust and aerosols. Provide appropriate exhaust ventilation in places where dust and aerosols are formed.

**Conditions for safe storage, including any incompatibilities:** Keep container tightly closed in a dry and well ventilated place. Store at room temperature between 15-30°C (59-86°F). Store upright and out of direct sunlight. Store away from ignition sources. Wash face, hands, and any exposed skin after handling. Do not eat, drink, or smoke when using this substance or mixture.

## SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

The purpose of the Occupational Exposure Band (OEB) classification system is to separate substances into different Hazard categories when the available data is sufficient to do so, but inadequate to establish an Occupational Exposure Limit (OEL). The OEB given is based upon an analysis of all currently available data; as such, this value may be subject to revision when new information becomes available.

**Ventilation And Engineering Controls:** Use with adequate ventilation. Follow standard medical product handling procedures. During decontamination of work surfaces, workers should wear the same equipment recommended in Section 6 (Accidental Release Measures) of this SDS.

### Personal Protection Equipment:

- Eye Protection:** Not normally needed during normal use. Use of safety glasses with side shields, goggles or full face protection may be required based on hazard, potential for contact, or level of exposure.
- Protection Gloves:** For situations in which prolonged skin contact is anticipated gloves that provide an appropriate barrier to the skin are recommended if there is potential for contact with this material.
- Respiratory Protection:** A respirator is not required for routine conditions of use of this product. Respiratory protective equipment (RPE) may be required for certain laboratory and large-scale manufacturing tasks if potential airborne breathing zone concentrations of substances exceed the relevant exposure limit(s). Workplace risk assessment should be completed before specifying and implementing RPE usage. If respiratory protection is needed, use only respiratory protection authorized in the U.S. Federal OSHA Respiratory Protection Standard (29 CFR 1910.134), equivalent U.S. State standards, or Canadian CSA Standard Z94.4-02.
- Protective Clothing:** During patient administration, use of lightweight cotton gown or other medical attire is recommended. In small-scale or laboratory operations, lab coats or equivalent protection is required. Disposable Tyvek or other dust impermeable suit should be considered based on procedure or level of exposure. Use of additional PPE such as shoe coverings, gauntlets, hood, or head covering may be necessary. Consult your site safety staff for guidance.

## SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

### Information on Basic Physical and Chemical Properties:

<b>Appearance:</b> White or almost white.	<b>Odor:</b> Odorless or faint odor.
<b>Physical State:</b> Powder	<b>Odor Threshold:</b> No Data Available
<b>Freezing Point:</b> No Data Available	<b>Melting Point:</b> No Data Available
<b>Boiling Point:</b> No Data Available	<b>Flammability:</b> No Data Available
<b>Flash Point:</b> No Data Available	<b>Evaporation Rate:</b> No Data Available
<b>Explosive Limits:</b> No Data Available	<b>Relative Density:</b> No Data Available
<b>Vapor Pressure:</b> No Data Available	<b>Vapor Density:</b> No Data Available
<b>Specific Gravity:</b> No Data Available	<b>Viscosity:</b> No Data Available
<b>Solubility in Water:</b> Miscible	<b>Solubility Notes:</b> No Data Available
<b>Autoignition Point:</b> No Data Available	<b>Other Information:</b> No Data Available
<b>Percent Volatile:</b> No Data Available	<b>pH:</b> No Data Available

## SECTION 10: STABILITY AND REACTIVITY

**Chemical Stability:** Stable under normal conditions and recommended storage conditions.

**Reactivity:** No data available

**Possibility of Hazardous Reactions:** No data available

**Conditions to Avoid:** Open flames and high temperatures.

**Incompatibility:** No Data Available

**Materials to Avoid:** As a precautionary measure, keep away from strong oxidizers.

**Hazardous Decomposition Products:** No data available

## SECTION 11: TOXICOLOGICAL INFORMATION

### Information on Toxicological Effects:

The toxicological properties of the mixture(s) have not been fully characterized in humans or animals. Therefore, laboratory or process control systems and appropriate work practices should be in place to minimize the potential for inhalation exposure, skin contact, eye contact, or ingestion when working with this material. Only information about the ingredients that are expected to contribute significantly to the potential health hazard profile of the formulation(s) is presented.

**Carcinogenicity:** No Data Available.

## SECTION 12: ECOLOGICAL INFORMATION

**Toxicity:** No specific environmental toxicity data available for this formulation.

## SECTION 13: Disposal considerations

**Waste Disposal Method:** Disposal must be in accordance with applicable federal, state, and/or local regulations.

## SECTION 14: Transport information

**Transport:** This material is not subject to the transportation regulations of DOT, IATA, IMO, and the ADR.

## SECTION 15: Regulatory information

**Regulatory Information Statement:** No Data Available.

## SECTION 16: OTHER INFORMATION

**Last Revision Date:** January 1, 2015

**Disclaimer:** The information contained in this Safety Data Sheet is provided in good faith and is accurate to the best of our knowledge. However, the manufacturer assumes no warranties expressed or implied. Users of these products are advised to verify that the information is suitable to their particular purposes prior to their use of them.
